American Dental Society of Athens, Greece

WE are pleased to note the organization of American dental graduates in Athens, Greece, as outlined in the following letter from the President of the Society:

Athens, October 30, 1926.

President's Office

3 Hippocrates Street.

TO THE EDITOR OF THE DENTAL COSMOS:

Sir,—We take the liberty to notify you that a corporation was formed last November in this city by surgeon dentists graduated from American dental colleges, under the title "American Dental Society of Athens, Greece."

The object of this Society is that Greece shall have, like all civilized countries, and especially America, a corporation composed of professionally trained dentists who have studied in America.

The want of such a professional corporation and the need of protection of the interests of the professional American dentists in Greece have actuated us in establishing this Association.

The American Dental Society of Athens, Greece, proclaiming the mutual interests and good-fellowship among its members, will endeavor to elevate the dental profession in Greece, which has unfortunately been lowered in the eyes of the people for lack of professional education and union among ourselves.

The object of our Society is high, as you see, and for full success it is indispensable to have your favour and your moral support, which we are sure you will give us.

Very truly,

N. D. NICHOLAIDIS, D.D.S., *President*.

The Society has been officially recognized and its legal status as a corporation established by an Act of the Tribunal of Athens, confirmed on the 14th day of February 1926, with the following officers:

President—Dr. N. D. Nicholaidis; *Treasurer*—Dr. Helen Caroni Deros; *Secretary*—Dr. John Berberellis; *Counsellors*—Dr. Antonius Blase, Dr. Georges Moraitis.
